ECHO-FLEX 5002

For general ultrasound

Reduces hyperextension work, occupational injuries and work stoppages by promoting an ergonomic position thanks to multiple adjustments.

Cleaning: The vinyl upholstery is tested for common cleaning products used in hospitals and clinics. It is resistant to Oxivir and Virox; imperative when infection control is a priority.

Help patients move themselves on the exam table during positioning.

Fixed or retractable transport handles are available for easy maneuvering of the exam table.

EMERGENCY

This exam table can go into Trendelenburg or reverse Trendelenburg ± 15°.

Rechargeable battery pack.

Colors:

- Denim Blue
- Raven
- Other on request

Entirely designed and manufactured in Canada, locally manufactures offers you easy access to spare parts and customer service in English and French.

Backlit hand controller.

Maximum weight capacity: 205 kg / 450 lb using hospital-grade electrical components.
120V - 3.9 AMP - 60 Hz.

Positioning cushion in the long section on the right side with cardiac cutout on the left side.

Positioning cushion in the back section on the right side with cardiac cutout on the left side.
