- OTHER ON REQUEST

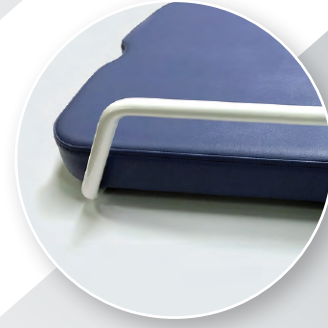

Easy-to-use controller available with either three or four adjustments.

Option: Button control panel can be attached to the side of the stretcher, avoiding any loose cables.

EMERGENCY

This stretcher can go into Trendelenburg -12 degrees.

Fixed (at the head) or retractable (at the foot) transport handles are available for easy maneuvering of the stretcher.

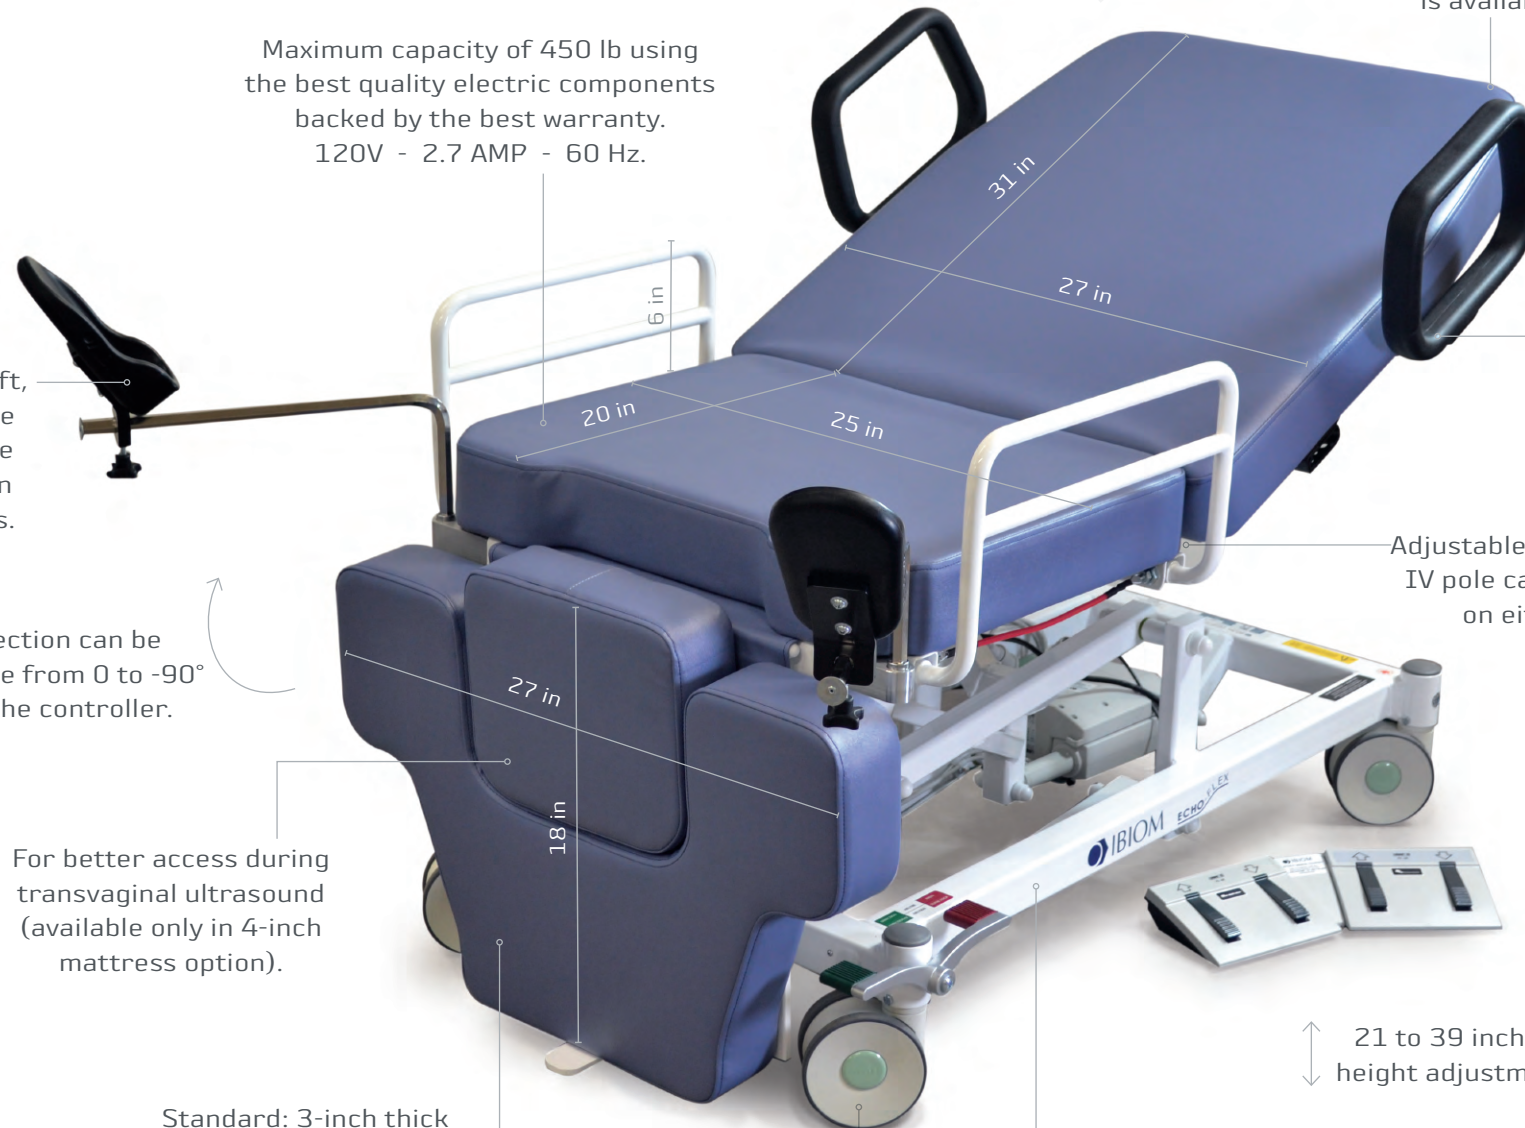

Standard fixed handles help patients to move themselves on the stretcher.

Maximum capacity of 450 lb using the best quality electric components backed by the best warranty.
 120V - 2.7 AMP - 60 Hz.

Fowler can adjustable from 0 to 80° using the controller.

Paper dispenser is available.

Removable and soft, these stirrups are more comfortable and less cold than standard stirrups.

Removable handles.

Adjustable stainless steel IV pole can be installed on either side.

Leg section can be adjustable from 0 to -90° using the controller.

For better access during transvaginal ultrasound (available only in 4-inch mattress option).

Standard: 3-inch thick high-density foam mattress.
 Optional: 4-inch thick high-density foam mattress (removable cushion only available with this option).

21 to 39 inches height adjustment

5-inch twin wheels feature easy-to-use central locking system.

LIFETIME WARRANTY means you can trust our structure and welds.

Single, double, triple, or quadruple foot controller is available for hands-free adjustments.

Completely designed and engineered in Canada. Locally manufactured gives you an easy access to replacement parts with customer service in English and French.
