# ECHO-FLEX 5002

## For general ultrasound

Improves performance during examinations.  
 Reduces hyperextension work, professional injuries and medical leave.  
 Facilitates ergonomic positioning because of its backlit hand controller.

**Cleaning:** Fabric is tested for a range of common hospital and clinic cleaning products. It is Oxivir and Virox resistant.

- Standard colours:

  - DU-201
  - DU-100

Special orders:

  - DU-150
  - US-429
  - OTHER ON REQUEST

Completely designed and engineered in Canada. Locally manufactured gives you an easy access to replacement parts with customer service in English and French.

Option: Button control panel can be attached to the side of the stretcher, avoiding any loose cables.

Easy-to-use, backlit controller with three adjustments comes standard.

**EMERGENCY**  
 This stretcher can go into Trendelenburg or reverse Trendelenburg  $\pm 15$  degrees.

Fully-retractable 24-inch side rails use a strong, secure mechanism to keep your patients safe.

Ibiom curve: 3-inch deep. Allows healthcare professionals to work more closely to the patient while maintaining an ergonomic position during an exam.

Protects the mattress and your walls when moving the stretcher.

Paper dispenser is available.

5-inch twin wheels feature easy-to-use central locking system.

Maximum capacity of 450 lb using the best quality electric components backed by the best warranty. 120V - 4.0 AMP - 60 Hz.

**LIFETIME WARRANTY**  
 means you can trust our structure and welds.

Adjustable stainless steel IV pole can be installed on either side.

21 to 37 inches height adjustment

Help patients move themselves on the stretcher during positioning.

5-inch free space below the chair base allows for use of a lift.
