

FOSTER® SLEEP CHAIR

Sit, lounge, sleep.

The Foster Sleep Chair gives healthcare facilities the ability to conveniently create patient areas that support families.

Available in standard or wide options, the Sleep Chair easily converts from seated to lounge and sleep positions with minimal effort, allowing family members to relax and get much-needed rest while assisting in the care of the patient.

Keeping in mind the ever-changing healthcare environment, replaceable seat and back covers are an option to help extend the life cycle of the product. The slope of the arm is designed to minimize shoulder stress, while the arm caps provide support for egress and ingress.

The Foster Sleep Chair is part of the Foster collection, a broad collection of healthcare seating solutions that support the entire continuum of care.

Featured Fabrics: Maharam Bitmap Polar
